

Hello everyone, Muhammad Daniyal here. Born in Pakistan, I completed my high school and college with a passion to study abroad. At a very young age I fell victim to this spark of discovering the world and seeking new horizons. I moved to Canada in 2013 & have been studying at TRU completing my Bachelors of Business Administration. Enjoying the delicacies and the richness of diversification, I chose to major in international business and minor in marketing & supply chain management.

I have been a part of the Admissions and Registrations office at TRU, both domestic and international as an Enrolment Assistant under the Co-op program. Apart of my academics and work experience, I have been an active volunteer for multiple events at TRU with TRUSU, Student Engagement and various clubs. Off campus, I am the associate director of the Kamloops Islamic Association executive committee where I am involved in various projects admin deals with and help in organizing events within the community as well as beyond just the scope of the Muslim community in Kamloops.

The desire of making a difference to the experiences that the students have at TRU or that the future students will have at TRU is why I felt the need of running for the position in the university senate.

I believe that I can be a voice for the students seeking help in any way at TRU & help make their stay at TRU a memorable one.

Achieving goals together is what I believe in firmly.
