Tutela.ca

Guiding Principles

1. **Community-led**
   Made **by** and **for** language training professionals across Canada. With seed money from CIC, **users collectively populate and develop the kind of site they would like to have.**

2. **ESL and FSL**
   Contributions in **French** from Québec and Francophone communities across Canada.

3. **User-friendliness and Simplicity**
   Intuitive design, incorporating tutorial elements. For those less familiar with web 2.0 tools, the site **teaches you how to use them**.

4. **Adaptability**
   Things change. System built to allow new content, using new media in yet-to-be-invented formats. Use of **open standards** to safeguard against obsolescence.
