# Q11: Main Takeaways

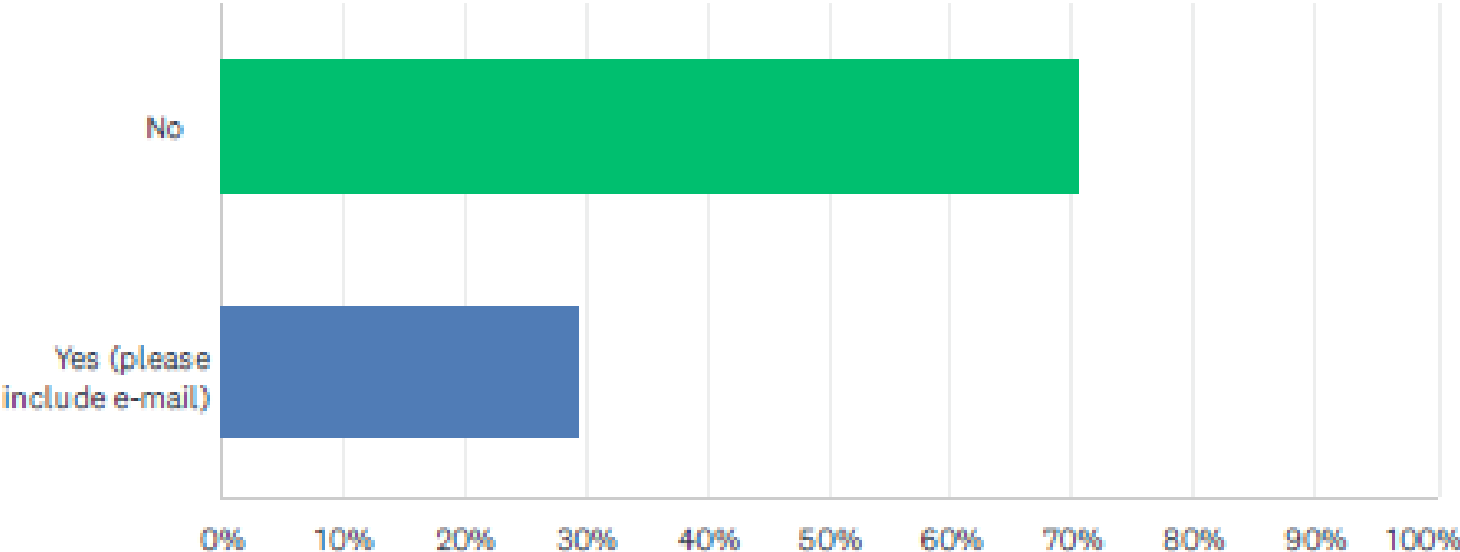

- Lots of mentions about specific workshops
- Lots of comments about so much interesting happening at TRU and there's lots to learn from each other
- “nuggets” of learning from different sessions
- “Learning never stops. Connect with colleagues and connect with your students be adaptable and flexible”
- “Everyone is struggling with something and we're all trying our best. This was an encouraging statement. I felt I was with a group of teachers and educators who all wanted to learn and were all struggling with similar issues”

# Q12: Future Themes and Topics

- Something from the theatre department about voice projection
- Keeping the sessions grouped by theme again
- Lots about Indigenous perspectives, decolonization, etc.
- Lots about similar to this year, we always cover it well, etc.
- From a different question: “I would like to see more basic entry level talks for new hires etc”
- From a different question: “I felt as if many of the presenters were so focused on the methodology of the researcher that they didn't bother to get to the results and how it would impact teachers in the classroom. I was interested in how each subject would impact me, but instead I had to listen to how data was gathered for 95% of their presentations.”

# Q13 Would you be interested in joining the TPC Committee? If so, please leave your e-mail address.
