Connecting to Eduroam – Mac OS

1. Before you can connect to Eduroam you will need to download the certificate installer from the Eduroam website.

   If you are not already connected to the internet, connect to the TRU network.

   After clicking connect a sign in page will appear and you can sign in using your TRU username and password.

2. After you have connected to the internet go to https://cat.eduroam.org.

   Scroll down and click on the large blue button, as shown to the right, to download the installer.

3. The next screen will ask you to select your institution, you may see Thompson Rivers University at the top of the list.

   If you do not see TRU on the list type "Thompson" into the search bar and choose TRU from the list.

Organisation

Choose another installer to download

6. Once the installer has finished downloading, run it. You will see the screen to the right asking if you want to install Eduroam, select Continue.

8. Enter your TRU ID followed by "@mytru.ca" for the username and your MyTRU password and click install.

9. You will be prompted to log in with your computer password to allow the install. Enter your computer password and press OK.

10. After the installation process is finished you will see the screen to the right showing that the certificates have been installed and you will be connected to the Eduroam network.

If you have any trouble connecting to the Eduroam network, please contact the IT Service Desk either by phone at 250-852-6800 or by email at ITServiceDesk@tru.ca.
