

My name is Kourtney Cameron, I am currently a third year Business student at TRU. During those three years I have been actively involved, attending and participating in university events. Since moving to Kamloops, TRU has become the place where I spend my time a part of a true community. As our school population grows, I feel it's important for new and returning domestic and international students to have all necessary channels of supports and aim to improve TRU's reach. Having been an on-campus and an online student full-time for the last 3 years I feel equipped to represent my fellow students with both on-campus and open learning affairs.
