

Hello everyone,

My name is Krishna Priya Malladi, and I am currently a third year BBA student. I'm running for Senate because I genuinely care about student experiences and the kind of campus community we are building together.

Like many students, I balance academics with work and personal responsibilities. Through this, I've learned how important it is for student voices to be represented where decisions are made.

Policies, services, and priorities should reflect the realities students face every day, not just in theory, but in practice.

During my time at TRU, I have been actively involved as a member of the Student Caucus as a student representative for the Student Success Committee under Senate. This experiences have allowed me to engage in conversations about academic policies, student support, and the overall learning environment. They have also strengthened my ability to listen carefully, consider different perspectives, and contribute thoughtfully to discussions that impact students.

I'm not running with unrealistic promises. I just want to be someone who listens, stays engaged, and represents students in a fair and honest way. I'll ask questions, speak up, and do my best for our student community.

Thank you for taking the time to read my statement. I would truly appreciate your support.
