

Senatorial Biography- Nicholas Warner

My name is Nicholas Warner and I am a human geography and history student in third year standing at TRU. It is my hope that I can use these disciplines, ultimately, as a means by which to organize the human world into a sustainable one. Therein lies my true passion. In tangent with my school work, I have been a campaign coordinator with the TRU Eco Club, and a member-at-large with our student union. Through these positions, I have enjoyed making our campus and the community more sustainable, more accessible, and more admirable. The university is an important institution in any community. It is my hope as a student representative on the senate to be able to elevate the status of our university to better serve the community. It is my hope that you will vote for me. Thank you for voting.
