TRU's Research Enterprise

Research Cycle & Vision

VISION: We will support all faculty members in knowledge-seeking, knowledge creation, and creative inquiry; and we will be recognized national leaders in community-engaged research and scholarship. Through our actions and by active engagement with faculty, students, and community partners, we will earn recognition as the most committed and innovative university in Canada for research and scholarship based on community partnerships; for involving graduate students in community-engaged research; and for undergraduate research training.

01 Research Facilitation

Pre- and Post-Grant Services, Tri-Agency Grants, Industrial Contracts, Foundation Grants, Municipal Funding, Provincial Funding, Ethics and Compliance, Policy Development and Implementation, Research Group and Centre Support, Research Space and Infrastructure Support

02 Public Engagement

Partnership Development, Community-Engaged Research, Indigenous Research Protocols, Xchange Lab, Kamloops Innovation, Research MOUs, Interior University Research Coalition, Researcher in Residence, Partnerships, Enterprise Creation, Community Workshops and Events

03 Student Research

Undergraduate and Graduate Student Support Programs, MITACS, Council on Undergraduate Research, Scholarships, RAs, Researcher in Residence, Community Engagement Placements, Postdoctoral Fellowships, Integration of "Research Experiences" into Curriculum

04 Knowledge Mobilization

Publications, Conferences & Workshops, Knowledge Translation Initiatives, Media Training, Research Website, Newsletters and Reports, Social Media

- Pre-and Post-Grant Services
- Tri-Agency Grants
- Industrial Contracts
- Foundation Grants
- Municipal Funding
- Provincial Funding

- Ethics & Compliance
- Policy Development and Implementation
- Research Group and Centre Support
- Research Space and Infrastructure Support

Council on Undergraduate Research (CUR), definition of Undergraduate Research:

a faculty-mentored “inquiry or investigation conducted by an undergraduate student that *seeks to* make an original, intellectual, or creative contribution to the discipline”

Scaffolding Increasing Student Involvement in Research
