Salman Kimiagari earned his B.Sc. in Operations Management from the Faculty of Management and his MBA with a concentration in Production and Operations Management from the Department of Industrial Engineering, College of Engineering, both at the University of Tehran, Tehran, Iran, in 2004 and 2008, respectively. In 2016, he received his Ph.D. degree in Business Administration from the Faculty of Business Administration, Université Laval, Quebec City, QC, Canada.

He is currently Professor at the Bob Gaglardi School of Business and Economics. At the school level, he chairs Management, Information and Supply Chain Department and Research Committee, and has served on different committees such as the International Advisory, MBA, MEEM-MScEEM, Undergraduate Curriculum, and Governance since 2016. At the university level, he served on the Steering Committee for 9 years, the Research Committee for 3 years, and Budget Committee for 4 years; he also served as Chair of the Student and Faculty TRU Sustainability Research Grant Committee (Sustainability Office) and as Treasurer of TRUFA for 2 years.

His research interests include the Strategic Management of Information Technology, International Business/Strategic Management, International Entrepreneurship, International Finance, Global Supply Chain Management, Global Business Design, International Marketing, Firm Transformation, and Operations Research. Dr. Kimiagari has authored and coauthored numerous peer-reviewed articles published in established academic journals, including the International Journal of Production Research, Journal of Retailing and Consumer Services, Enterprise Information Systems, Annals of Operations Research, Thunderbird International Business Review, International Journal of Knowledge Management, IEEE Transactions on Engineering Management, European Business Review, Journal of Strategic Marketing, and Scientia Iranica. Finally, he has coached the BG SoBE Team for several BC MBA Games since 2016 through volunteer activities and as a session chair or reviewer for various conferences and journals.
