IMPLEMENTATION

Implementing the 5 Priorities over 5 Years

The Strategic Priorities planning and implementation process depends on the most important resource available to the university, namely the energy and creativity of our people. Therefore, our community: students, faculty, staff, alumni and community members will be invited to submit proposals which champion and implement these pan-university priorities over the next five years. It is understood that strategic proposals may require strategic investments. Thus, future budgeting processes will provide for strategic investments in initiatives that align with these priorities. Key strategic indicators and milestones will be developed to monitor the progress of all initiatives.

TRU is uniquely positioned to redefine the modern university. Successfully implementing these strategic priorities will take “The TRU Model” to the next level of excellence in creating knowledge and understanding for the benefit of all people.
