Implementing the 5 Priorities over 5 Years

The Strategic Priorities planning and implementation process depends on our people, the most important resource available to the university. Our community: students, faculty, staff, alumni and community members will be asked to champion and implement these pan-university priorities over the next five years. Future budgeting processes will provide for strategic investments in initiatives that align with these pan-university priorities. Key Strategic Indicators will be developed for these initiatives.

TRU has, over the past 40 years, become a unique and truly modern university. Successfully implementing these strategic priorities will take “The TRU Model” to the next level of excellence in creating knowledge and understanding for the benefit of all people.
