

UNIVERSITY PREPARATION

Adult Basic Education

We work with you to reach your goals

- Classes are small and adult-learner centred
- Teaching methods accommodate your life experiences and learning style
- Full academic support includes free tutorial assistance, five days a week, in the UPrep Centre.

Intermediate Level (Grade 10 Equivalent)	Advanced Level (Grade 11 Equivalent)	Provincial Level (Grade 12 Equivalent)	Goal

All courses are not taught in all locations. Courses are offered when demand requires.

TRU STORIES

Tahnyea Robbins

Nursing

"Having young children made it difficult to go back to school. But now years later, Adult Basic Education was there for me and guided me into a career I always wanted."
—**Tahnyea Robbins**

Matt Dobson

Natural Resource Science

"I was never that great at math or science in high school, but I needed to upgrade to keep going at TRU. Thankfully, the teachers were fantastic and made those challenging courses very palatable for me."
—**Matt Dobson**

FINANCIAL ASSISTANCE

If you are seeking to upgrade to enter a post-secondary program at a public institution, you may be eligible for an Adult Upgrading Grant.

This non-repayable grant covers costs for tuition, textbooks, ancillary fees, unsubsidized childcare and more.

Contact the Student Awards & Financial Support office to find out more. tru.ca/awards

HOW TO ENROL

Visit the UPrep page for information on ABE courses: tru.ca/uprep

No matter what you dream of doing, many careers—trades, technical, vocational, academic—require post-secondary education.

Get the skills, the knowledge and the confidence to step into your new future by taking ABE courses through TRU's University and Employment Preparation Department.

PROGRAM HIGHLIGHTS

Widen your horizons

- Refresh your knowledge in specific subjects or improve your marks.
- Enrol in a single course or more; whatever is right for you.
- Prepare for degree and diploma programs.
- Discover avenues of study you may have thought were closed to you.
- Upgrade or complete the BC Adult Graduation Diploma while you continue to parent and/or work.
- Take UPrep courses concurrently with university-level courses.
- Conduct hands-on experiments for science classes in university laboratories.
