Honours Program  
Biology 499-6 Honours Thesis  
Biology 498-2 Honours Seminar

Qualifies/Does not qualify \_\_\_\_\_  
(Chair's signature)

Date \_\_\_\_\_

The following schedule applies to both Directed Studies and Honours applications. (Please see the course outline for Biology 498/499 for more deadlines relevant to honours students.)

Date:	Action	Responsibility
Nov 15	Presentation to students on Research opportunities	Department, initiated by chair
Jan- March	Biology 398 Students confer with prospective supervisors.	Instructors Student
First Monday in May	Student to submit application and a preliminary proposal (see attached guidelines) for Honours/Directed Studies to B.Sc. advisor.	Student
Late May/early June	Committee (including lab faculty) meets to review applications and decide on acceptance	Department

If a student misses the deadline or decides later that they would like to do a Directed Studies project, the committee can meet again (usually in Fall) to determine if there is space and/or resources to accommodate them. Honours Students must be accepted into the program and registered in BIOL498 and BIOL499 by the beginning of the Fall semester.
