

EduRoam for MAC 10.5

Click the Wireless icon at the top of the screen. If the Airport is currently off, click **Turn AirPort On**.

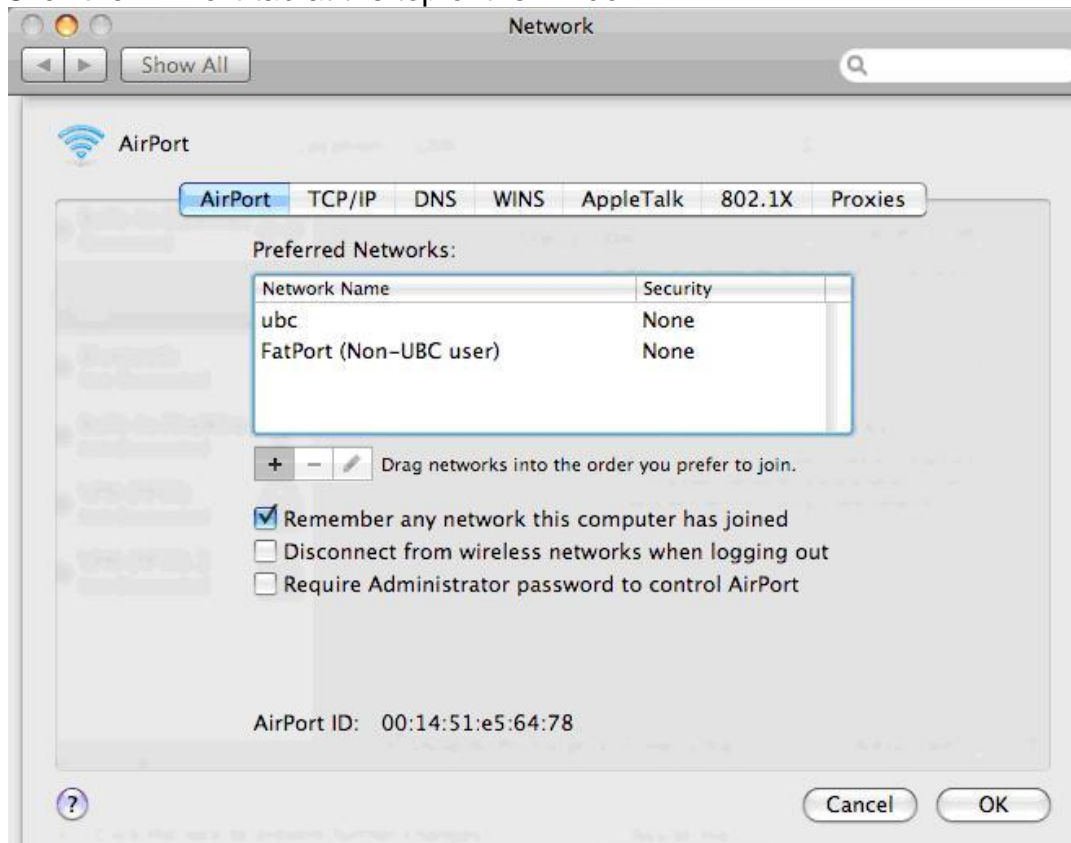

Then, click Open Network Preferences.

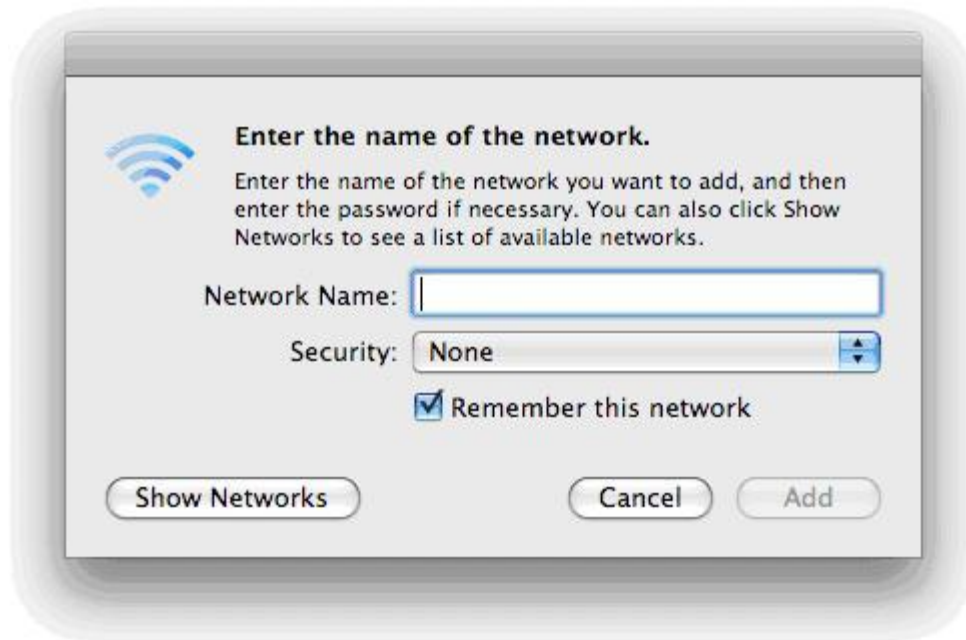

The **Network** window should now be open. Click the **Advanced** button at the bottom right.

Click the **AirPort** tab at the top of the window.

Click the **+** symbol below the list of **Preferred Networks**.

For **Network Name**, type *EduRoam*
For **Security**, select *WPA Enterprise*.
Leave the **User Name** and **Password** field blank.
For **802.1X**, select *Automatic*.
Click **Add**.

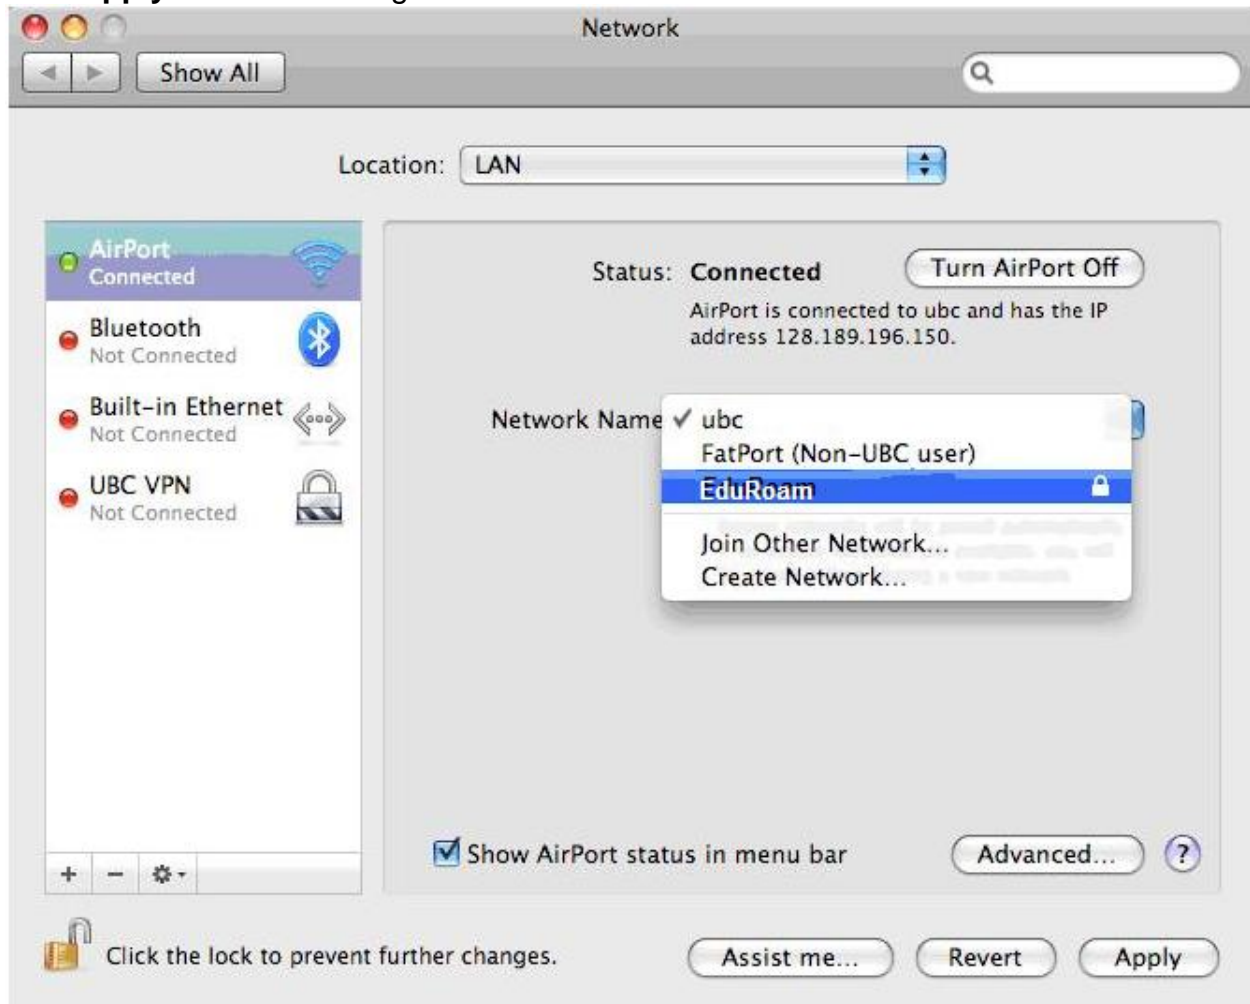

EduRoam for MAC 10.5

Click **OK** at the advanced **Network** window. You should now be at the AirPort tab of the **Network** window.

For **Network Name**, select *EduRoam*.

Click **Apply** at the bottom right at of the Window.

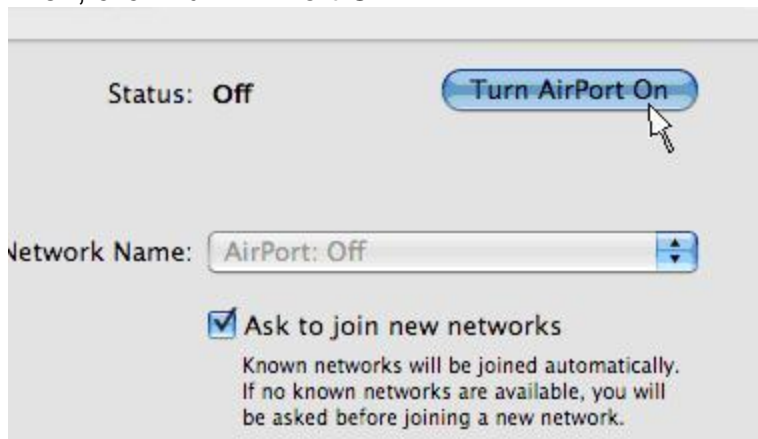

A window titled **802.1X Authentication** will appear (it may, in fact, appear before you've had a chance to click Apply). Enter your TRU Login ID@tru.ca and password and then click OK.

EduRoam for MAC 10.5

If a connection has not been established after one minute, click the Wireless icon at the top of the screen, and turn the AirPort off.

Then, click Turn AirPort On.

Within a few seconds, your connection to *EduRoam* should be established.
