Department of Management  
School of Business and Economics

### HRMN 2820-3 Human Resource Management (3,0,0)

#### Calendar Description

Students are introduced to the management of an organization's workforce through the design and implementation of effective human resource policies and procedures. Current Canadian issues and practices are emphasized. Topics include the strategic role of human resources management, human resources planning, job analysis and design, recruitment and selection, employment equity, compensation, training and development, performance appraisal, occupational health and safety, and employee and industrial relations.

#### Educational Objectives/Outcomes

Upon completing this course, students will be able to:

1. Describe the critical role of human resource management in the workplace.
2. Determine the human resource needs of an organization.
3. Conduct a job analysis and produce a job description from the job analysis.
4. Evaluate the procedures and practices used for recruiting and selecting suitable employees.
5. Summarize the different types of employee benefits and compensation systems.
6. Assess training requirements and design a successful orientation and training program.
7. Illustrate an effective employee performance appraisal system.
8. Discuss workplace health and safety programs and the roles of the employer and the employee in enforcing health and safety policies and procedures.
9. Explain the responsibilities of human resource management specialists, administration, and employees in managing the employment relationship in a unionized or a non-unionized environment.

#### Prerequisites

CMNS 1290, ORGB 2810

Note: Students cannot receive credit for more than one of HRMN 2820, HRMN 3820, or TMGT 1140 (C+ or higher).
