

VISUAL ARTS

Our programs offer exciting courses that allow students to explore their creative potential within a positive and encouraging environment. Students benefit from small classes, direct contact with professionally-active faculty, one-on-one consultation, exceptional facilities, options for professional practice, funded research projects and strong community connections.

OPPORTUNITIES FOR STUDENTS

Whether you are taking single courses or enrolled in one of our programs, you will find your creative interests through courses in painting, drawing, sculpture/intermedia, printmaking, photography (analog and digital), and upcoming video courses, all offered in spacious, well-equipped studios which are available between classes for studio work by Visual Arts students. History of art and theory courses add critical thinking and approaches for understanding past and current issues in art and culture. Our close relationship with the arts community in Kamloops provides excellent opportunities for exhibitions and attending shows, visiting artist talks, social events and workshops.

CAREERS FOR GRADUATES

In addition to a career as a working artist, Visual Arts backgrounds are often required in film, television, video production, education, architecture, animation, graphic design and new media. Creative thinking skills are desirable and sought after across disciplines, industry and professions.
