

Windows 8 Installations

Windows 8 requires the Microsoft .NET Framework 3.5 for the Alertus Client to work. To install .Net Framework 3.5

Start: Control Panel

Select: Programs and Features

Select: Turn Windows features on and off (left hand column)

Select: .NET Framework 3.5 (includes .NET 2.0 and 3.0)

OK

.Net Framwork 3.5 should download and install.
